## RECORD-BREAKING PROSPERITY IS PREDICTED BY BANKER

Henry Clews, banker of New York, in his special letter of August 26, comments in part as follows upon the fine outlook for crops:

"Nothing short of disastrous weather, therefore, can now prevent a year of record-breaking prosperity for the American farmer. This means a powerful stimulus to many lines of industry. The corn crop by itself is of incalculable value, because of the many directions in which it is utilized as food or for manufacturing purposes. Cotton, too, is one of the vital elements in our national prosperity, being one of our mainstays in the export trade, as well as a ruling factor in our textile industries. These two great crops will not only vitalize many industrial pursuits, but will also enable our farmers to be liberal buyers of both luxuries and necessities during the coming winter.

"Local merchants throughout the Northwest are confident of good business this autumn. The leading bankers in that section are also exceedingly optimistic. Railroad managers throughout the Northwest are straining every effort to avoid a congestion of traffic when the crops begin to move. Reports of an impending car famine are coming from all directions, and can only be averted by shippers promptly co-operating with the railroads in avoiding such conditions. One of the most beneficial effects of a big harvest would be its tendency to reduce the cost of living. Food, the principal item in the cost of living to the masses, will certainly be cheaper at first hands; and if there is not a substantial decline in the prices of breadstuffs and meats next winter it will not be the fault of the American farmer. The blame, if any,

will be more likely to fall upon the distributor.

"The activity of the iron trade continues phenomenal. Prices have risen \$6 to \$8 per ton from the lowest point. Many plants are running to the full limit of their capacity, and complaints are increasing of tardy deliveries. The demand for steel products, of course, comes chiefly from the railroads, which are compelled to renew both equipment and rails upon an extensive scale.

"Immense Export Increase. "Our merchandise exports in July amounted to \$147,200,000, or \$19,100,000 more than a year ago. Our imports during the same period reached \$148,600,000 or \$30,500,000 in excess of last year. This latter increase caused an excess of imports for the month of \$1,332,000, compared with an excess of exports a year ago of \$9,640,000. So sudden a reversal of our foreign trade situation is very unusual. It will be noted that our exports were very heavy in spite of the declining tendency in bread-stuff shipments. The striking feature and the only reason for this remarkable change in our trade balance was the tremendous increase of over \$30,000,000 in imports, due chiefly to heavy arrivals of rubber, coffee, sugar, copper, tin, hides, etc. In other words, high prices are having their ultimate effect in drawing larger supplies from abroad. If continued this tendency will have an unfavorable effect upon our foreign exchanges and might check the demand for our investments; but it should be remembered that the season is near when we ship cotton in large quantities, and the probabilities are that we will have more grain to spare for export than a year ago; ocean freights having already risen very sharply in anticipation of a big outward movement this fall."

Three earthquake shocks were felt at Reno, which didn't jar the divorce colony at all.

## HOW TO PREVENT NERVOUSNESS

Most Disorders of the Nerves  
Come from One Cause and  
May Be Prevented or  
Cured

It is never too late to take Dr. Williams' Pink Pills for Pale People for nervous troubles.

You can be certain that a breakdown or exhaustion of your nerves is due to a lack of nourishment caused by thin or impure blood. The starved nerves break down after any unusual strain. This condition is easily remedied with Dr. Williams' Pink Pills for Pale People. They start at once to build up the blood, making it richer and purer with every dose, thereby checking further wear on the nerves and the progress of the disease. The new blood makes the nerves more fit every day to do their work.

Mrs. Elizabeth Shepherd, of No. 1216 Washington street, Kansas City, Mo., says:

"I gladly tell of my experience with Dr. Williams' Pink Pills. I was suffering with partial paralysis of the left side of my face, the trouble beginning with a general breakdown of the nervous system. First I had a severe earache which came on very suddenly. My left ear seemed to be held in a vise. There was a prickling sensation throughout my head and left side of my face. My eyes were affected and the left side of my face became partially paralyzed. The pains were very severe. I was weak, could not get a good night's rest and lost in flesh. My circulation was poor.

"I was treated by doctors at Ossawatimie, Kan., who pronounced my affliction partial paralysis. They gave me only temporary relief. I also took electric treatments for a time. After a year of suffering, during which time I was occasionally confined to bed for a day or so, I began using Dr. Williams' Pink Pills. I received benefit sooner than I hoped for and gained in strength rapidly. The prickling sensations disappeared and I took the pills until cured. I have great faith in Dr. Williams' Pink Pills."

We will send free upon request our new booklet, "Diseases of the Nervous System," to anyone interested. Dr. Williams' Pink Pills are sold by all druggists or direct by mail, post-paid, 50 cents per box; six boxes, \$2.50 by the Dr. Williams Medicine Co.,

Italy and Turkey seem unable to reach any common ground in the matter of peace negotiations.

The Rev. Dr. Roland Dwight Grant, a noted evangelist, died suddenly in New Hampshire.

## P. C. JONES GIVES INFIRMARY FOR OAHU COLLEGE

As a memorial to Mrs. Jones, P. C. Jones yesterday gave to Oahu College \$10,000 to be used for an infirmary.

The infirmary will be built at a cost of about \$50,000, and this will leave an equal amount for an endowment. President Griffiths and the trustees who were present at the college corporation meeting yesterday were delighted with the gift, and plans will be immediately prepared which will take into account both the climatic conditions and the peculiar needs which are to be met at Manahou.

President Griffiths said last night that it was one of the most acceptable gifts that the college could receive at this time and that it would be a great relief of mind to him to know that there will be an infirmary where any sickness in the college may be taken care of. While the college has been fortunate in not having many or serious epidemics, the growing number of students has for some time made such a building necessary.

Mr. Jones, accompanied by his daughter, Mrs. Gartley, leaves today for a two months' trip to the East.

### MUSCULAR RHEUMATISM.

Stiff neck, lame back, lumbago, pains in the side and chest, all indicate muscular rheumatism. There is no more satisfactory remedy for trouble of this kind than a free application of Chamberlain's Pain Balm, massaged well into the skin. Many severe cases that have defied all other treatment have yielded to the soothing effect of this liniment. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

## Electrically Purified Milk

For over a year now we have been using the wonderful purifying process in our depot on Sheridan. This electrical treatment of the milk insures the absolute purity of every drop without affecting the flavor or quality.

Physicians and bacteriologists everywhere pronounce this the one perfect method of purifying milk.

We would like to have you call and see this electrical apparatus in operation.
